

## Login de usuario

Poder registrar al usuario en la base de datos

- **Requerimiento de datos únicos e irrepetibles**
  - Para la fluidez y lógica de la app sin redundancia de datos.
- **Corroborar contraseña**
  - Para verificar que la información que el usuario ingreso es la correcta y disminuir el número de errores de teclado.

The image displays two mobile application screens for a service named "GLOO".

**Top Screen (Registration):** The header is a green bar with "GLOO" in white. The main area has a light blue background with the instruction "Contesta todos los campos." in bold blue text. It contains three input fields for "Nombre(s)", "Apellido paterno", and "Apellido materno", each with a red "x" icon. Below these are fields for "Correo de usuario" (containing "ejemplo@correo.com"), "Contraseña", and "Repetir contraseña", each with a red "x" icon. There is a "Recordar" checkbox and a blue "Siguiente" button. At the bottom, there are links: "Regresar a la pagina principal" with a house icon and "Ya tengo cuenta" with a right-pointing arrow icon.

**Bottom Screen (Login):** The header is a green bar with "GLOO" in white. The main area has a light blue background with the instruction "Iniciar sesion." in bold blue text. It contains fields for "Correo de usuario" (containing "email@example.com") and "Contraseña", each with a red "x" icon. There is a "Recordar" checkbox and a blue "Siguiente" button. At the bottom, there are links: "¿Eres nuevo aqui? Registrate" with a plus icon and "¿Olvidaste tu contraseña?" with a key icon.
